

AL SHOHUB PRIVATE SCHOOL

— مدرسة الشهب الخاصة —

SINCE 1999

PUTTING THE HEART IN PRIMARY EDUCATION

Welcome to our school community!

I am extremely proud to welcome you to Al Shohub Private School.

Our school is a happy, nurturing learning environment that focusses on developing the whole child and encourages children to flourish through an understanding of the world around them and their place in it.

Our children are confident, kind and intelligent individuals who have pride in their culture and heritage and understand that this is a strength. Our staff encourage them to explore and investigate, to wonder and ask questions and as a result they are brave and explorative in nature. From Pre Nursery to Year 6 our children work hard to achieve in an environment that is both supportive and challenging. Our dedicated teachers and support staff focus

on well-being, emotional intelligence and academics to ensure every child flourishes at Al Shohub. We aim to provide culturally appropriate and relevant real life experiences for our children so they can apply their knowledge and skills outside the classroom, we believe that learning happens everywhere and that children's achievements outside school should also be celebrated with their peers and school community.

Family engagement is an integral part of our school, through strong home/school relations, and an open-door policy we aim to ensure strong relationships with all our community to further foster success. The UAE is an extraordinary place to live and the memories made in a child's younger years will remain with them forever. At Al Shohub our focus is to make these memories the foundations of a lifetime of learning, self esteem and confidence. To ensure that by the time our children leave us they have developed into skilled, educated young people who seize opportunities with ambition and a smile on their face. We aim to make them and their families proud of the young people they have become.

Helen Morris,
Principal,
Al Shohub Private School

ABOUT US

English National Curriculum from FS2 to Year 6, our Primary school is coeducational, offering boys and girls exciting opportunities which will stimulate your child's desire to be an independent and resilient learner. Through the provision of a broad, balanced and creative curriculum we will equip your child with core subject skills and provide them with the knowledge and understanding to apply their learning in a range of ways.

At Al Shohub we have high academic and social expectations of our students and the learning community as a whole.

THE CURRICULUM EYFS

Our FS2 follow the statutory Early Years Foundation Stage (EYFS) framework. This curriculum is based upon four themes and principles:

- ◆ **Unique Child** - Every child is a unique child who is constantly learning and can be resilient, capable, confident and self-assured.
- ◆ **Positive Relationships** - Children

learn to be strong and independent through positive relationships.

- ◆ **Enabling environments** - Children learn and develop well in enabling environments, in which their experiences respond to their individual needs and there is a strong partnership between practitioners and parents.
- ◆ **Learning and development** - Children develop and learn in different ways. The framework covers the education and care of all children in early years provision, including children of determination.

PRIME AREAS OF LEARNING

- ◆ Personal, Social and Emotional Development
- ◆ Communication and Language
- ◆ Physical Development

SPECIFIC AREAS OF LEARNING

- ◆ Literacy
- ◆ Mathematics
- ◆ Understand the world
- ◆ Expressive Arts and Design

The curriculum provides a broad range of skills enabling students to build firm foundations and allowing the next blocks to be built through the National Curriculum. Our students leave EYFS being able to communicate and ask questions, and with the ability to form positive relationships as they transition to the Key Stage 1 Phase.

Key Stage 1

The Key Stage 1 Phase comprises Year 1 and Year 2 and focuses on providing continuity and progression in learning for students as they transition from child-initiated play in EYFS to more structured learning experiences. It enables students to experience the joy of discovery, problem solving and creative thinking to grow intellectually, socially, mindfully and emotionally.

The curriculum is designed to develop students' interests to explore and learn confidently and collaboratively. It promotes an enquiring mind with the capacity to think rationally. Assessment of learning is an ongoing process of evaluating, recording, tracking and reporting progress to inform planning and differentiation on a daily and unit basis. Learning expectations and progress are communicated to students through teacher feedback, celebration of student learning, and opportunities to self-reflect and peer assess. Newsletters, parent-teacher conferences, and school reports are used for communication between teachers and parents.

KEY STAGE 2

The Key Stage 2 Phase consists of Year 3, 4, 5 and 6 where students are encouraged to delve deeper and learn through a sense of enquiry to develop into independent and reflective learners.

Our curriculum provides rich opportunities for collaborative working through engaging topics.

English and Maths are vital and are combined with stimulating links established through the areas of Humanities, Design, Science and Music, as well as MOE subjects; Arabic, Islamic and UAE Social Studies. The skills of independent learning and cooperation with others are also developed along with attitudes and values that ensure progression in the development of essential life skills. Our curriculum provides opportunities for learners to interact with global and local cultures while contributing towards the environment.

A wide range of learning and assessment strategies are applied to suit the diverse needs of students, and Approach to Mastery helps students master concepts. Homework is given to reinforce the understanding of concepts learnt in class and helps students work independently and learn time-management skills.
